3. Definition of Terms

Salzburg Airport is to be understood for “Salzburger Flughafen GmbH” in this regulations document.

Air Transport Companies are all Air Carriers for the commercial transportation of persons and goods by aircraft (§ 101 Z.2 LFG)

Ambulance Flights are flights according to § 2 ZARV for the transportation of seriously ill or seriously injured patients, who have received medical treatment, or emergency patients moved from one hospital to another.

Aerial Work Flights are flights in the course of which a working process is carried out which does not consist of a transportation or the performance of the flight itself. Among them shall be in particular: aero-tow flights, aerial spreading and spraying flights and other crop and insect spraying flights, flights for the dropping of parachutists, photo flights, aerial surveying flights as well as workshop and hangar flights (see also under test and trial flights).

Aircrafts operated by the Republic of Austria are to be defined as those aircrafts of the Austrian state authorities/departments registered in the aircraft-register.

Austrian Domestic Air Traffic means all flights carried out by any Austrian Carrier under its air route licence for the performance of scheduled air traffic exclusively between Austrian airports.

Aviation Authority Duties are:

- Flights to practise the right of inspection according to LFG
- Flights according to § 119 (e) LFG
- Calibration Flights
- Flights to determine approach and landing procedures
- Flights by the aircraft accident commission
- Flights by the search and rescue services.

Sortie flights are to be treated equally according to § 145 LFG

Cargo Aircraft is any aircraft transporting goods or materials which is not a passenger aircraft.

Change of Load is the on/off loading or redistribution of load (passengers, baggage, cargo, mail etc.)

Charges incur for handling services.

Emergency is a landing in the case of a relevant event (e.g. illness or death of a passenger, technical defect on aircraft) or the threat of violence.

Familiarization Landing is a landing for the purpose of technically testing the aircraft or for the familiarization of the crew.

Fees are tariffs approved by the Federal Ministry of Science and Transport of Austria as Supreme Civil Aviation Authority.

Flight Number is the identification of a flight which contains a (3) 2 letter Code (ICAO, IATA) and/or additional figures or letter combinations.

International Flights are all commercial or non-commercial flights which cross the borders of the Federal Republic of Austria and take off or land abroad.

Maximum Take-off Weight (MTOW) of the aircraft according to the aircraft documentation.

National flights are all commercial or non-commercial flights which take off and land in Austria.

Passengers are all persons transported in an aircraft with exception of the crew.

Passenger Aircraft is an aircraft carrying any person other than crew members, the Carrier's employees on duty, authorized representatives of a national authority or persons accompanying a consignment.

Passenger, Baggage, Cargo and Mail are all of these categories mentioned in this regulation apply to all persons and goods to be transported in the aircraft of the aircraft owner or the Carrier company.

Regional Traffic mean scheduled flights from and to Salzburg with an aircraft seating capacity of up to a maximum of 125 seats and maximum take off weight (MTOW) of 59 tons (Fee groups 1-4) providing that the Carrier operates more than 750 flights (landings) in this category of traffic. A further limitation will ensue according to flight time and distance to the destination airport. The definition will be made with reference to objective criteria by Salzburg Airport. The reduced fee for regional air traffic will only be applied to the landing fee and the passenger fee and but not to the infrastructure fee (ISF).

Rescue Flights are flights according to § 2 ZARV for the rescue of people whose life or health is in immediate threat of danger.

Technical Landing is a landing where by no physical change of load occurs between the landing and before the next take-off. Ballast is not to be seen as load in case of a technical landing.

Test Flights (Airworthiness) are flights to ascertain the airworthiness of the aircraft or the operation fitness of pieces of equipment.

Test Flights (Certification and Maintenance) are flights for the testing of the aircraft before its certification or after carrying out maintenance work.

Training Flights are flights for training purposes according to the ZLPV or ZP-decree under the supervision of a flight instructor.

Transfer Passengers are passengers whose flight number changes during their stop over and who physically most of the time have to change aircraft by using the airport facilities.

Transit Flights are scheduled flights operating from an Austrian airport via Salzburg Airport to a destination abroad (et vice versa).

Transit Passengers are Passengers whose flight does not change the flight number during the turn around.

Weight class A is according to the aircraft register of the Federal Republic of Austria this shall comprise of one-engine aeroplanes and rotorcraft up to 2.000 kg MTOW irrespective of the number of seats.

Wide-body Aircraft is a high capacity aircraft with more than one aisle in the passenger cabin and more than 6 passenger seats per seating row.

4. Miscellaneous charges

1. Terminal Navigation Charge

For inquiries concerning Terminal Navigation Charge please contact:

<p>Austro Control</p> <p>Österreichische Gesellschaft für Zivilluftfahrt mbH A – 1030 Wien, Schnirchgasse 11</p> <p>Fax: + 43 – 5 – 1703 – 9416</p> <p>Contact for airlines with initial letter A – H: Tel.: + 43 – 5 – 1703 – 9414 Email: angelika.niedl@austrocontrol.at</p> <p>Contact for airlines with initial letter I – Z: Tel.: + 43 – 5 – 1703 – 9417 Email: michael.mikulasch@austrocontrol.at</p>

The Terminal Navigation Charge is no part of Salzburg Airport Fees & Charges and will be charged by Austro Control.

In case of cash payment the landing or take off fees shall be invoiced and levied in the name of Austro Control and paid to them.

2. Schedule Coordination Service Fee (SCA Schedule Coordination Austria)

In accordance with § 142 Luftfahrtgesetz every Air Carrier has to pay a "Schedule Coordination Service Fee" approved by the Federal Ministry of Science and Transport of Austria for Slot Coordination.

The levy of the "Schedule Coordination Service Fee" is raised on behalf of SCA Schedule Coordination Austria GmbH by Salzburg Airport, who transfers this fee to the SCA Schedule Coordination Austria GmbH.

The payment of the "Schedule Coordination Service Fee" to Salzburg Airport is liable to the payment arrangements for the payment of fees in accordance with II.1.2 of this Regulation.

For inquiries concerning the Schedule Coordination Service Fee please contact:

<p>SCA Schedule Coordination Austria GmbH</p> <p>Objekt 610 A-1300 Wien Flughafen Tel.: +43 1 7007 23600 Fax: +43 1 7007 23615 Email: info@slots-austria.com</p>
--

The "Schedule Coordination Service Fee" is no part of Salzburg Airport Fees & Charges.

3. Security Contribution

In accordance with § 13 Luftfahrtsicherheitsgesetz each Air Carrier must pay a security contribution of **EUR 8,00** for every passenger departing from Salzburg Airport respectively **EUR 4,00** for each transfer passenger. This security contribution will be credited to the Republic of Austria by the airport operator. The payment of the „Security Charge" to Salzburg Airport is subject to the conditions as laid down in II.1.2 of this Regulation.

4. Extension of Operating Hours

For the provision of necessary equipment and personnel on special request beyond the official operating hours as approved for the Civil Aerodrome Operator according to § 3 para. 1 ZBFO, a flat rate according to the Single Service List (Annex II, 5.) shall be paid for every commenced quarter of an hour irrespective of any other fees.

As per decree no. 60.521/24-8/97 from 20th October, 1997 by the Federal Ministry of Science and Transport the operating hours of Salzburg Airport are 06.00 - 23.00, local time.

In the case of a requested extension of operating hours, the Civil Aerodrome Operator invoices the aerodrome user the amount of the actual fees, as prescribed by Austro Control Ltd for the above-mentioned period. These fees incur independently from those mentioned above and have to be settled when they occur.

II. FEES

I. General Provisions

1. Regulation of Fees

Fees are tariffs approved by the Federal Ministry of Science and Transport of Austria as Supreme Civil Aviation Authority. For rates see Annex II, 2.

2. Payment

For the payment of fees and charges following debtors are jointly liable:

- the aircraft operator in scheduled and non-scheduled traffic according to the flight number or according to the indications in the ATC-flight plan
- the keeper of the aircraft according to § 13 LFG
- persons, who are in possession of the aircraft and who are not owner or keeper

If the aircraft operator is not known the aircraft keeper shall be regarded as aircraft operator until he has proven who is or was the aircraft operator.

In the case of a "Code-Sharing-Flight" the aircraft operator whose code is shown at the beginning of the flight number is responsible to report the total number of departing passengers for statistical purposes and is responsible for the payment of the applicable charges.

Any resulting reimbursement between the actual operating carrier and its "code-sharing-partner(s)" is up to the actual operating carrier.

The fees will be charged exclusively in EURO.

All the fees quoted are net fees and exclusive of V.A.T.

The fees are payable immediately and in cash. Any other settlement terms for payment require a written consent from the Civil Aerodrome Operator. All expenses incurred from the payment shall be charged to the debtor.

Salzburg Airport reserves the right to request securities before provision of services, e.g. bank guarantees, deposits, assumption of liability or pre-payment.

In the case of late settlement, a rate of interest of 8 % above the base rate according to § 352 UGB will be added to that invoice. In addition all other correspondence, legal and recovery costs which will be charged to the debtor.

The set-off of claims is not possible unless

- Salzburg Airport would be insolvent and the claim would be part of the bankrupt's assets
- the claim is recognized by a declaratory judgement
- Salzburg Airport has recognized the claim

Salzburg Airport shall have the right to appoint the debtor according to para. 1 respectively to correct calculation errors.

Salzburg Airport reserves the right to gather customer's credit information.

3. Jurisdiction and Governing Law

The exclusive place of jurisdiction for any legal actions that should arise out of, or in connection with this agreement and as regards other services provided by Salzburg Airport shall be the competent court of the city of Salzburg, Austria.

The law of the Republic of Austria, excluding the UN-law on purchase and further excluding the conflict of law provisions of the Austrian International Private Law (IPRG), shall apply. For any modifications of the conditions stated in this Regulation a written consent of Salzburg Airport is necessary.

2. Fees - Explanations

1. Landing Fee

This fee shall be payable for the use of the landing facilities and installations (including lighting facilities), for the use of aircraft parking positions within the free parking time, for the marshalling of the aircraft in and out and for the positioning and removal of chocks .

The basic claim of the Civil Aerodrome Operator for this fee is at the moment of touch down at Salzburg Airport. This charge is also payable for flights performed during operating hours if no landing takes place ("LAPP-low approaches") but the airport's infrastructure is needed in terms of readiness of operations. These flights will be registered by the air-traffic-controller's takeoff and landing list and forwarded to Salzburg Airport.

To determine the assessment basis as stated under item 2, the flight operator or the Carrier or the aircraft owner shall be obliged to provide the Civil Aerodrome Operator with the required documentation (e.g. AFM).

The assessment basis for the landing fee to be paid shall depend on the maximum take of weight.

2. Passenger Service Fee

For the use of the passenger terminal buildings including its facilities and installations a charge shall be payable for all departing passengers.

The claim of the Civil Aerodrome Operator for this fee shall arise with the acceptance of the passenger for transportation.

To determine the base of assessment stated in item 2, the flight operator or the aircraft operator or owner shall provide the Civil Aerodrome Operator with the required documentation.

The basis of assessment for the passenger service fee to be paid is the number of departing passengers.

Not included in the basis for assessment are:

- Children under two years of age.
- Transit passengers using the terminal building and its facilities due to a technical aircraft failure and a subsequent change of aircraft.
- Passengers carried by an aircraft of weight class A.
- Airline personnel on a business trip with a free flight ticket as well as persons with a Government Request Status who are 100 % exempted from the airfare.
- Persons whose presence on board an aircraft is absolutely necessary for the purpose of performing training-, work- and test flights.
- Parachutists when departing for bailing out.
- Persons whose presence on board an aircraft is absolutely necessary during rescue and ambulance flights in fulfilling their medical duties. (e.g. doctors, medical personnel.)
- Persons whose presence on board is absolutely necessary during sortie flights.

3. PRM-Fee

According to article 8 (1) of the EU Regulation No 1107/2006 the managing body of an airport has to provide passengers with reduced mobility the assistance referred to in Annex I of the EU Regulation named above. For financing this assistance a charge will be levied on each air carrier using an airport.

The aerodrome operator's right to claim this fee is constituted by the acceptance of the passenger for transport.

The basis of assessment for the PRM fee to be paid is the number of departing passengers and will be levied in connection with the Passenger Service Fee as an additional fee.

4. Parking Fees

This fee shall be payable for the use of the Civil Aerodrome Operator parking area by an aircraft.

The claim of the Civil Aerodrome Operator for that fee shall accrue at the moment the aircraft has been parked or is being moved to the parking position.

A special agreement can be signed for aircraft permanently parked at the airport. This guarantees a parking position with possibilities of securing the aircraft depending on the positions available.

5. Infrastructure Fee

The Carrier/aircraft operators are liable for the payment of a fee to Salzburg Airport for the use of the "central infrastructure facilities" according to § 10 Art. 2 FBG.

For the definition of the "central infrastructure" of Salzburg Airport refer to II.3 of this Regulation.

The regional fee is not applicable to the infrastructure fee.

The air side infrastructure fees shall be distinguished from the land side infrastructure fees in principle.

The airside infrastructure fee involves the classification of an aircraft in a fee group according to the criterion of the number of seats and the MTOW. As soon as either of these category limits is exceeded the aircraft falls into the next category up. The internal calculation of the handling service factor has been taken into consideration for the ordering of aircrafts into the fee groups.

The calculation of the landside infrastructure fee will be made according to the number of passengers at take-off. The provisions for the calculation of the flight passenger fees apply.

3. Definition of Central Infrastructure Facilities

1. Service Item: Marshalling Equipment

Due to the operational situation and a contract with Austro Control GmbH this service will be provided as "central infrastructure service".

2. Service Item: Supply and Disposal Systems

Toilet Waste

a) Toilet Waste Filling Station

Provision of:

- Toilet car parking position in the airport maintenance building
- Water supply connection
- Storage Tank for disinfecting liquid (formaldehyde free)
- Connection pipes with appropriate fittings
- Distribution point for disinfectant by hose and hose roll
- Filling pump for storage tank filling

b) Toilet Waste Disposal Station

Provision of:

- Toilet car parking position - outdoors
- Emptying point for toilet waste with inlet pipe into drainage system
- Toilet waste tank cleaning (Cleaning equipment)
- Sewerage pipes to toilet waste storage point

c) Toilet Waste Disposal Trucks

Provision of

- 2 toilet waste disposal trucks

Performance of attendance and maintenance such as

- Water consumption including sewerage fees
- Disinfectant formaldehyde free
- Energy costs: Lighting, electrical energy and vehicle diesel consumption

Fresh Water

a) Fresh water station

Provision of:

- Fresh water truck parking position in the airport maintenance building
- Water/Chemical mix counter
- Water supply connection
- System separator
- Connecting pipes with appropriate fittings
- Membrane measuring pump.
- Preparation container
- Injection hose
- Water counter with contact fitting
- Distribution counter
- Distribution point with hose and controlled measuring container
- Drinking water emptying point with sewage connection
- Position for work protection equipment and for storage container
- Photometric water analysis equipment with digital measurement indicators

b) Fresh water trucks and personnel

Provision of:

- 2 fresh water trucks

Provision of:

- Attendance and maintenance services
- Electricity
- Heating
- Water
- Connection to the public sewage system

c) Central Refuse collection equipment and environmental control.

Provision of:

- Sheltered refuse collection area

- 2 refuse collection points (separate containers for individual types of refuse)
- Refuse press and personnel
- Systems of registered models according to the Salzburg Law for the utilization of refuse and contractual agreements with an authorized refuse collector

Salzburg Airport has implemented a concept for separating refuse. The random control of aircraft with regard to the legislated refuse separation is an integral part of this concept and is therefore a duty of the central infrastructure. Salzburg Airport has had an environmental control system EMAS (Environmental Audit System) installed since 2001. Furthermore Salzburg Airport is subject to having the legal requirements for waste separation.

3. Service Item: Baggage Conveying facilities including Central baggage sorting area

a) Sorting Equipment for departing Baggage (departure)

Provision of:

- Sorting Area
- Collection and sorting belts
- Bulky items belt
- Baggage weight checking equipment (EDP)
- Baggage sorting for departing baggage
- Baggage transport for departing baggage from the point of check-in to the threshold of the baggage sorting area

b) Baggage Delivery Equipment (Arrivals)

Provision of:

- Sheltered area for off-loading on to conveyor belts
- 3 baggage carousels
- Bus terminal delivery facilities
- Proportionate areas of arrivals hall for the baggage carousels

4. Service Item: Storage and Filling facilities for Aircraft De-icing fluid

Provision of:

- Storage area in the airport maintenance building
- Storage and filling facility (the facility consists of a heated storage container for aircraft de-icing fluid with a volume of 100.000 litres)
- Heating container for water (4 750 litres full)
- Pumps and filling equipment for the de-icing trucks
- Safety leakage containers (for protection against leaking de-icing fluid, the whole system is kept in a container)
- Proportionate areas in the airport maintenance building for the filling equipment

5. Service Item: Check-in facilities

Provision of:

- 26 check-in counters in Terminal 1 and 12 check-in counters in Terminal 2 inclusive of necessary weighing and conveying equipment
- 3 ski check-in counters including asphalt ramp.
- Transfer and delay information desk.

The administration and operation of all the above-mentioned infrastructural facilities is done by the airport operator.

4. Exemptions and Reductions

1. General

For the types of fees the following exemptions and reductions shall be applicable under certain conditions.

The claim of a user (airline company or aircraft operator) for an exemption from and/or reduction of the fee to be paid shall arise when it is proven that the condition tied to the respective fee in question prevails.

A reduction claim only can be made per fee type and this reduction shall be valid only for the fee for which it is intended.

2. Basis of Assessment and Rates

The rate of exemption (=100% reduction) shall be calculated for each fee type as a percentage of the reduction on the calculated sum. Fees without exemption shall be indicated by "0" and are to be paid in full. If no fee is applicable this will be indicated by "-".

Fees:

- Landing Fee	=	LF
- Passenger Service Fee	=	PSF
- Parking Fee	=	PF
- Infrastructure Fee	=	ISF

The following **rates of reduction** apply:

	Type of Exemption or Reduction	a/c up to 5 t	a/c over 5 t	PSF	PF	ISF
1.	Aircraft owned by the Republic of Austria in performing official duties for the authorities	50	50	-	100	100
2.	Aircraft performing:					
2.1.	Aviation Authorities' duties	100	100	100	0	100
2.2.	Sorties as per § 145 LFG	100	100	-	0	100
2.3.	Rescue Flights (primary)	50	50	-	0	50
2.4.	Ambulance Flights	0	0	0	0	0
3.	Aircraft from air Carriers for purpose of training for route experience flights, instruction an training flights	50	50	0	0	100
4.	Aircraft with a flight number in the case of:					
4.1.	Emergencies	50	50	50	0	50
4.2.	Bomb Threats	50	50	0	0	50
4.3.	Technical Landings	50	50	0	-	50
4.4.	Return Landing within one hour	100	100	-	0	50
4.5.	Return Landing after more than one hour	-	-	-	0	50
4.6.	Return Landing and reloading to the Position relief aircraft	100	100	-	0	50
4.6.1.	Relanded aircraft within one hour	100	100	-	0	50
4.6.2.	Relanded aircraft within more than one hour	0	0	-	100	50
4.6.3.	Positioned relief aircraft	0	0	-	0	50

5.	Aircraft used for training for General Aviation purposes to/for:					
5.1.	receive a private or commercial pilot's licence	50	50	-	0	100
5.2.	the extension of a licence as mentioned in para 5.1	50	50	-	0	100
6.	Aircraft parked for less than 4 hours	-	-	-	100	0
7.	Passenger fee for General Aviation (excluding commercial flights): Passengers in aircraft up to 2 t	0	-	100	0	100

The reductions under item 5 shall only be applicable for an Austrian training company with the appropriate aviation authority training permission for Salzburg Airport.

Reductions under points 2., 3., 4.3 to 4.6 and 5. only apply if flights have been registered as such with the Civil Aerodrome Duty Manager prior to or, at the latest, immediately after the event and if particularly for the purpose of settling accounts the notification of the type of flight as stated in points 3 and 5 is made to the Civil Aerodrome Operator stating all relevant details for training (Carrier company, Civil Aviation Flight School, Aircraft, flight instructor).

The reduction rates in point 3 only apply if the flights serve the sole purpose of instruction and/or training of the crew. Special arrangements can be made with the Civil Aerodrome Operator for instruction and training programmes over an extended period as well as in the case of an airline company carrying out instruction and training flights exclusively at this civil aerodrome.

In an individual contract a special agreement for bonuses can be defined if the Carrier operates more than 15 % of the total number of movements at Salzburg Airport.

III. HANDLING CHARGES

I. Provision of Ground Handling Services

As a consequence of the Carrier taking up the handling services contract conditions between the Carrier and Salzburg Airport arise. An additional handling contract can be made between Salzburg Airport and the Carrier.

Salzburg Airport provides the ground handling services for aircraft handling as mentioned in Annex I (List of Standard Ground Handling Services) within the framework of its technical and personnel resources.

Salzburg Airport will also provide on demand such services necessary for aircraft handling not mentioned in Annex I (Annex II, 5.). Such single services shall be provided according to the availability of personnel and equipment and invoiced separately.

Salzburg Airport shall provide the services mentioned above to the normal standard and with trained staff. Salzburg Airport reserves the right to subcontract such services to third parties.

Salzburg Airport reserves the right to charge services according to the list of charges for single services, if the Carriers' requirements go beyond the normal standards of basic services

The Carriers and Salzburg Airport shall support and advise each other when conducting ground handling services and shall consider possible mutual relevant recommendations.

The Carrier shall provide Salzburg Airport with information and instructions which are necessary for a service in accordance with the regulations. Salzburg Airport will request the appropriate information and instructions from the Carrier if necessary. Salzburg Airport will only pass on information found in the Carriers' flight documents with their permission as far as they are not legally prevented to do so.

2. Standard of the Ground Handling Services

The ground handling services are performed according to the normal procedures at Salzburg Airport and according to international standards.

Salzburg Airport shall perform all services taken on with trained personnel. Representatives of the Carrier and Salzburg Airport shall discuss issues arising over the performance and the quality of the ground handling services if necessary. The evaluation of problems arising in the handling procedure shall consider the punctuality of the Carrier.

It is compulsory for the Carrier to give sufficient notice to Salzburg Airport of any handling of bulk goods or special cargo which extent beyond the normal standards of service (Annex I List of Standard Ground Handling Services). There shall be a mutual advisory and support system from both sides. The expenditure for this handling shall be invoiced separately (Annex II, 5.).

3. Performance of Ground Handling Services

1. Scheduled Flights

Salzburg Airport is obliged to provide the ground handling services as mentioned in Annex I for scheduled flights of the Carrier on Salzburg Airport without previous request. Scheduled flights are those which are announced to Salzburg Airport (Airport Duty Manager) at least 72 hours before landing.

Carriers are obliged to give due notice to Salzburg Airport about the number of flights planned within a flight plan period so that Salzburg Airport can provide the respective services. This information shall contain: the aircraft type and version, the flight number, the planned arrival and departure times and the airport of origin as well as all significant special features relevant for handling. The Carrier is obliged to inform Salzburg Airport in good time of any alterations affecting the scheduled flights. This is valid especially for delays, early arrivals and flight cancellations. If delays or cancellations will cause waiting periods beyond the airport opening hours, this will be invoiced separately.

2. Non-scheduled flights, special flights

Salzburg Airport will also provide ground handling services as soon as possible for all non-scheduled flights which are performed at Salzburg Airport by the Carrier or on behalf of the Carrier, in the framework of its technical and personnel resources, considering the already accepted obligations. The Carrier is obliged to announce these flights in good time.

3. Priority

If there is an overlapping in the handling of aircraft of other Carriers due to an unannounced or delayed aircraft, Salzburg Airport reserves the right to give priority to the flights which are announced and on schedule.

4. Documents for the Ground Handling Services

For the providing of Ground handling services the Carrier is obliged to provide Salzburg Airport with relevant documents and information in good time.

5. Special Assistance (Emergencies)

In emergencies (emergency landings and accidents) Salzburg Airport will immediately take all appropriate and possible action even without instruction from the Carrier, to assist the passengers and crew and to protect the transported luggage, cargo and mail from loss or damage. All costs resulting from this service will be refunded to Salzburg Airport by the Carrier.

6. Handling on Public Holidays

At present there is no additional charge on Saturdays, Sundays and public holidays.

7. Separate Handling

If the landing and take-off of an aircraft are no longer immediately connected (overnight, interruption of flight, positioning etc.) there can be an additional charge of 20% of the handling charge for the separate handling.

The immediate connection between landing and take off of an aircraft is no longer valid after a ground time of more than 4 hours.

8. Technical Landing

Only 50% of the handling charges will be calculated for the handling of a technical landing (without changes of load)

9. Re-loading or partial unloading of handled aircraft

If a reload or partial unloading should occur after the loading has been completed an additional fee of 50% will be calculated on top of the handling charge.

10. Transit flight

60% of the current handling charge will be calculated for transit flights.

11. Waiting time

For the provision of personnel beyond the normal operating hours of the airport the time up to a quarter of an hour before the landing or take off of the aircraft to be handled will be calculated as a single service on an hourly rate. If no handling takes place in such cases 50% of the handling charge will be charged.

12. Use of Ground Power Units

The Ground Power Unit will be available for 60 minutes for free during each handling; for time exceeding this limit there will be a single service invoice.

13. Cargo and Mail Aircraft

For cargo and mail aircraft the handling charges will be calculated on demand.

4. Charges

For the performance of handling services according to list of standard ground handling services charges apply.

Aircrafts over 10 tons MTOW are subject to mandatory handling services.

Handling charges are to be paid for services carried out according to Annex 1 (List of Standard Ground Handling Services) as flat rate independently from the actual extent.

Additional Services, which have been performed and are not included in Annex 1, will be charged according to Annex 2 (List of Single Services).

A setting off of counterclaims shall only be permitted by express agreement of Salzburg Airport.

The Carrier will additionally be charged V.A.T. so far as the charge is not in accordance with § 6 para. 1. no. 2 in connection with § 9 para. 2 Austrian VAT Law.

5. Cancellation of Handling Services

If passengers flights registered for handling services are cancelled 36 hours before the scheduled flight, this is regarded as cancellation of the handling services. A cancellation charge of 50% of the relevant charge applies, if services were already performed or cost have incurred. Cases of force majeure are not regarded as cancellation.

6. Adjustment of Charges

Salzburg Airport has the right to adjust the handling charges corresponding to the cost development or for important reasons. The adjustment will be made annually coming into force on April 1 and published on <www.salzburg-airport.at>. Alternatively the Carrier will be informed of the adjustments 60 days before they come into force.

7. Terms of Payment

The charges are displayed net without VAT and have to be paid in EURO before departure. If the charges are not subject to § 6 para. 1 no. 2 and § 9 para. 2 UStG the VAT has to be paid.

An immediate payment is not mandatory if the Carrier has made

- an advance payment,
- a guarantee or deposit,
- and/or regular down-payments.

In these cases invoices will be sent on a weekly basis. The invoices are to be paid free of charge on receipt. A delay of payment will result in interest on arrears of 8% above the base rate according to § 352 UGB plus all other correspondence, legal and recovery costs. If there is a delay of payment Salzburg Airport has the right to interrupt or refuse aircraft handling.

Salzburg Airport reserves the right to gather customer's credit information.

Any disbursements made by Salzburg Airport on behalf of the Carrier will be reimbursed by the Carrier at cost price plus an accounting surcharge of 15 % has to be paid if there is any disbursement.

8. Liability

The Carrier will be informed immediately of any damages occurring in the aircraft or of the load regardless of the reason and time.

Salzburg Airport is not liable for damage suffered by the Carrier or for demands for damage compensation made against the Carrier which happen in connection with the services provided by Salzburg Airport except when such damages are caused by gross negligent or wilful behaviour on the part of Salzburg Airport, its personnel or a third-party subcontractor.

The Carrier releases Salzburg Airport from all claims of a third party, including costs which arise from services performed by Salzburg Airport unless such claims arise from gross negligent or wilful behaviour by Salzburg Airport, its personnel or a third party subcontractor.

In single cases liability will go no further than that between the Carrier and its contract partner.

Contract parties shall be free of obligation if one of the contract partners cannot fulfil their obligation due to strike, natural disaster or other special reasons which are outside their sole possibilities to decide.

In any case the liability of Salzburg Airport does not go beyond the provision of article 8 IATA Standard Ground Handling Agreement.

Following limits of liability according to Art 8.5. IATA Standard Ground Handling Agreement 2004 and the industrial standards apply:

9. Miscellaneous

Should a provision of these conditions of business not meet the legal regulations this provision shall be replaced by the legal admissible provision which comes the nearest to the submitted intention of the ineffective provision. The validity of the remaining provisions remains unchanged.

These conditions of business and contract conditions comply with the law of the Republic of Austria.

Place of performance and legal venue is the City of Salzburg.

ANNEX I – LIST OF STANDARD GROUND HANDLING SERVICES

I. Handling Services Passenger Aircrafts

The performance of handling services is carried out on basis of the recommendations of the IATA Standard Ground Handling Agreement 2004 with regard to the local conditions. The numbers refer to the description of services of SGHA 2004.

The following definition of the content of services marked as **(RHC)** for Ramp Handling Charge, **(THC)** Traffic Handling Charge, is binding for the range of services provided by the Ground Handling services of Salzburg Airport.

The following flat rate charges are indivisible and to be paid in full even when only part of the service is used.

All services which are not included in the List of Standard Ground Handling Services will be Single Services and are marked with **(SS)**. These Services will be invoiced according to the List of Single Services (Annex II, 5.).

Services marked as ISF are Infrastructure services. Those marked with **PSF** (passenger service fee), **LF** (landing fee) and **PF** (parking fee) are fees. **SEC** stands for security services which have to be performed according to legal requirements, **HC** for hangar charges.

Services marked with „X“ are not provided by Salzburg Airport.

Text deviating from the IATA Standard Ground Handling Agreement 2004 is marked in *italics*.

3. Charges

valid from: 1 April 2009

1. Handling Charges

Basis of Assessment

The basis of assessment for the handling charges for passenger aircraft depends on the actual seating capacity respectively the MTOW of the aircraft.

The classification of an aircraft in a fee group depends on the criterion of the number of seats and the MTOW. If either of these category limits is exceeded the aircraft falls into the next category up. The internal calculation of individual aircraft handling costs has been taken in consideration for the ordering of aircrafts into the fee groups.

Maximum seating capacity will be calculated until the correct certification is provided. There will be no backdated repayments.

The following handling charges are valid for all **Carriers / Commercial Flights**:

seats	MTOW	RHC	THC
		EUR	EUR
up to 37	up to 17	298,50	228,20
up to 50	up to 25	405,70	324,20
up to 80	up to 44	646,30	566,20
up to 125	up to 59	845,60	641,10
up to 168	up to 70	1.133,60	755,10
up to 190	up to 100	1.331,20	807,40
up to 235	up to 159	1.855,60	1.171,50
up to 275	up to 200	2.387,30	1.482,70
from 276	from 200	3.678,80	2.285,10

The following handling charges are valid for all **General Aviation** flights:

MTOW	EUR
up to 5.000 kg	228,20
5.001 up to 13.000 kg	320,00
13.001 up to 17.000 kg	389,40
17.001 up to 25.000 kg	485,40
25.001 up to 44.000 kg	727,40

From **44.001 kg** the charges for commercial flights (see above) apply.

2. Shuttle service

For aircrafts which do not demand handling services a flat rate of **EUR 7,50** for the shuttle service to the General Aviation Centre (GAC) accrues.

3. Hangar Charges

General

A charge for the storage of an aircraft in a hangar accrues.

The towing in or out of the hangar of an aircraft can only be done by Salzburg Airport. The claim by Salzburg Airport for this charge arises at the time of handing over the aircraft to Salzburg Airport for towing.

Basis of Assessments and Rates (for unheated hangars)

The basis of assessment for the charge to be paid is the maximum take off weight.

Charge for an aircraft with MTOW **up to 5.000kg** per 500 kg or part thereof per 24 hours or part thereof **EUR 9,79**

Charge for a/c with MTOW **over 5.000 kg up to 10.000 kg** per 1.000 kg or part thereof per 24 hours or part thereof **EUR 19,46**

Charge for a/c with MTOW **over 10.000 kg** per 1.000 kg or part thereof per 24 hours or part thereof **EUR 21,17**

Monthly flat rate charge

Monthly flat rate (at least 20 days) for a/c with MTOW **up to 5.000 kg** per 500kg or part thereof and calendar month **EUR 176,38**

Monthly flat rate (at least 20 days) for a/c with MTOW **over 5.000 kg up to 1.000 kg** per 1.000kg or part thereof and calendar month **EUR 308,81**

Monthly flat rate (at least 20 days) for a/c with a MTOW **over 1.000 kg** per 1.000kg or part thereof and calendar month **EUR 335,22**

The monthly flat rate can only be granted by the Civil Aerodrome Operator according to the amount of hangar space available (written application is required!)

The single towing in or out of the hangar of an aircraft respectively for the purpose of hangaring:

MTOW	MTOW	EUR
	up to 2.000 kg	7,50
over 2.000 kg	up to 5.000 kg	14,90
over 5.000 kg	up to 10.000 kg	29,70
over 10.000 kg	up to 15.000 kg	59,80
over 15.000 kg		82,50

The towing in or out of the hangar of an aircraft for the purpose of work to be done by other companies will be calculated as a single service.
